

Isaac Friedman

Software developer

347-522-6120 • isaac@isaac-friedman.com

www.isaac-friedman.com • www.github.com/isaac-friedman

I am a full stack developer with experience in PHP, Python, UNIX shell, JavaScript, jQuery, PL/SQL, HTML5, SVN, Git, and more. I am also a long-time Linux user with experience in Systems support and some AWS knowledge. Currently, my personal projects are all aimed at improving my Python gaining experience with front-end libraries like Bootstrap.js, and Selenium web driver.

Independent Consultant

1/2016-Current

I'm currently an independent contractor with a wide-ranging practice focusing on web development. Some of the services I offer include:

- **Community nonprofit website** – I maintain a Joomla! website which included custom modifications to templates in PHP for the photo gallery and blog tools
- **Wordpress site for nonprofit with backend** – Created a WordPress site for a nonprofit to maintain a blog and accept donations. The site has granular user controls and leverages PayPal's transaction API to maintain a donor database
- **Custom website maintenance** – Hotfixes and updates in HTML/CSS for sites that have not yet switched to more modern platforms

Millward Brown Digital

10/2013 – 1/2016

Software Developer

At Millward Brown, I was on the team that developed all products including my niche – the internal company software suite. My stack was PHP, JavaScript, Apache, Ubuntu, PL/SQL. Some of my work included:

- Condensed multi-day workflows into a fifteen minute step by writing software in for project managers.
- Was responsible for development of new utilities from start to finish, requirements gathering to final tests. I
- Created tables and wrote procedures in PL/SQL
- Responsible for Access Control to the company's New York data center
- Created and deployed VMWare virtual machines
- Integrated Doubleclick API with our system (lead maintainer)
- Saved the company \$23k a month by auditing our AWS and other infrastructure expenditures

Tikkun Repairs

6/12-10/2013

Consultant

CUNY Brooklyn College

class of 2013

BS in Computer and Information Sciences
